E-Commerce Lab

Department of Computer Science and Automation

Indian Institute of Science

Bangalore-12

April 4, 2008

Why research

- Need deep understanding of the subject
- Think creatively
- See what others have not seen

Why research

- Need deep understanding of the subject
- Think creatively
- See what others have not seen
- Industry also realizing the value of research

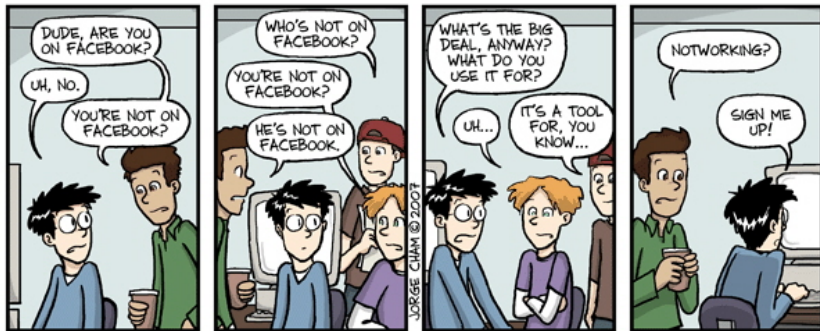

First semester over

- No more **credited** course work... *Hurray!!!*

× We don't want to be like this

Getting started

- do literature review

Getting started

- do literature review
- formulate problem

Getting started

- do literature review
- formulate problem
- propose research ideas

Getting started

- do literature review
- formulate problem
- propose research ideas
- doing quality work should be fundamental agenda

Getting started

- do literature review
- formulate problem
- propose research ideas
- doing quality work should be fundamental agenda
- get good results

What next?

What next?

- But it is not just solving big problems

$$\frac{A^{m_j n_k} \vec{B} \times \vec{C}}{\sqrt{(1/(1-\varphi/c))^3}} \sqrt{2 \sqrt{2\pi\beta} \frac{\tilde{X}}{\dot{\omega}} b \left(\frac{c^\beta}{3}\right)^{\sqrt{8}d}} \left(\frac{\dot{Z}}{V} + \dot{y}_a\right)^{2\frac{a}{\Theta}}$$

What next?

- But it is not just solving big problems

$$\frac{A^{m_j n_k} \vec{B} \times \vec{C}}{\sqrt{(1/(1-\phi/c))^3}} \sqrt{2 \sqrt{2\pi\beta} \frac{\tilde{X}}{\dot{\omega}} b \left(\frac{c^\beta}{3}\right)^{\sqrt{8}d}} \left(\frac{\dot{Z}}{V} + \dot{y}_a\right)^{2\frac{a}{\Theta}}$$

- Write papers

What next?

- But it is not just solving big problems

$$\frac{A^{m_j n_k} \vec{B} \times \vec{C}}{\sqrt{(1/(1-\phi/c))^3}} \sqrt{2 \sqrt{2\pi\beta} \frac{\tilde{X}}{\dot{\omega}} b \left(\frac{c^\beta}{3}\right)^{\sqrt{8}d}} \left(\frac{\dot{Z}}{V} + \dot{y}_a\right)^{2\frac{a}{\Theta}}$$

- Write papers
- Attend conferences

What next?

- But it is not just solving big problems

$$\frac{A^{m_j n_k} \vec{B} \times \vec{C}}{\sqrt{(1/(1-\phi/c))^3}} \sqrt{2 \sqrt{2\pi\beta} \frac{\tilde{X}}{\dot{\omega}} b \left(\frac{c^\beta}{3}\right)^{\sqrt{8}d}} \left(\frac{\dot{Z}}{V} + \dot{y}_\alpha\right)^{2\frac{a}{\Theta}}$$

- Write papers
- Attend conferences
- **Communication skills** are important

What next?

- But it is not just solving big problems

$$\frac{A^{m_j n_k} \vec{B} \times \vec{C}}{\sqrt{(1/(1-\phi/c))^3}} \sqrt{2 \sqrt{2\pi\beta} \frac{\tilde{X}}{\dot{\omega}} b \left(\frac{c^\beta}{3}\right)^{\sqrt{8}d}} \left(\frac{\dot{Z}}{V} + \dot{y}_\alpha\right)^{2\frac{a}{\Theta}}$$

- Write papers
- Attend conferences
- **Communication skills** are important
- Learn writing research reports

- Write papers
- Attend conferences
- **Communication skills** are important
- Learn writing research reports
- Making presentations
- **L^AT_EX**

Perspective Seminar is a great start

- Reports are reviewed by faculty and senior students
- Chance to present your ideas/results
- You receive valuable feedback on your report, research ideas and presentation from faculty as well as peers
- Audience are familiar to you
- Get to know what your colleagues are doing

If not above, this a **wake up** call !!!

If not above, this a **wake up** call !!!

- Do quality research
- Publish papers in high class conferences and High Impact Journals

If not above, this a **wake up** call !!!

- Do quality research
- Publish papers in high class conferences and High Impact Journals
- *All the best* for your research career

Thank You!!!
